INNOVATION

THEME : Advances in Neurosciences

Dear Colleagues,

It gives us great pleasure to invite you to NeuroConnect 2026, the 4th annual academic conclave hosted by Jain Hospital & Neuro Centre. This year's meeting will bring together clinicians and researchers from across Delhi NCR on a common platform dedicated to Neurosciences.

The conference will focus on "Advances in Neurosciences", featuring eminent faculty sharing practical, evidence-based updates across neurological sciences. The scientific programme will spotlight recent advances and real-world challenges in neurology, neurosurgery, neurocritical care, neuroradiology, and mental health.

NeuroConnect 2026 will also offer excellent opportunities to reconnect with peers, foster collaborations, and interact informally over dinner in an enriching atmosphere. We look forward to your participation in making this edition of NeuroConnect truly memorable.
